

2013 Registry Report

The Northwestern Medicine Lake Forest Hospital Community Comprehensive Cancer Program is a collaboration among physicians, clinicians and administrators. The tumor registry, a vital component of the cancer program, collects and maintains pertinent patient data required for reporting to the State of Illinois Cancer Registry, the National Cancer Database and the American Cancer Society. This data is utilized to guide patient care by helping to determine the effectiveness of current therapeutic interventions and providing for future therapies. This data is also used for cancer incidence and outcome reporting.

The cancer program is accredited by the American College of Surgeons Commission on Cancer. The registry has a reference date of 2000.
